PROFESSIONAL SUMMARY

A highly motivated person settling into the programming sector. Born in Hungary, moved to the UK. Went to High School and College achieving much higher than expected results. Took a gap year in which I taught myself HTML, CSS and JavaScript. During this time I was also accepted into a government-funded Software Developer Bootcamp, in which I learned a lot more detailed below. Now I am looking forward to the future with my studies in Computer Science at the University of Sheffield.

WORK AND STUDY HISTORY

QA SOFTWARE DEVELOPER BOOTCAMP

Student | Online | 17 Jan 2022 - 18 Mar 2022

During this bootcamp, I have attended a full-time course in which I have had experience with Java, Python, Git, Microsoft Azure and Microservices. By the end of this course, I received a Microsoft Azure certification and had created sophisticated microservices as a team. From this bootcamp I was able to broaden my professional horizon and got to know many people in this industry.

FUJITSU

Student | Online | 14 Feb 2022 - 25 Feb 2022

In Fujitsu virtual work experience, we learned about cyber security and quantum computing in the work environment.

DAYS INN BY WYNDHAM WETHERBY

Receptionist | Leeds, West Yorkshire | Jun 2021 - Sep 2022

As a team we interacted with hundreds of people on a daily basis to perform a variety of duties to ensure guest satisfaction and safety. Some of these included: checking people in and out, responding to emails/calls, serving on the bar, providing information and being attentive for anything dangerous. From my time there I have gained many new skills and a boost to my confidence.

SIEMENS

Student | Online | 12 Apr - 07 May 2021

On the Siemens virtual work experience, we learned about how the internet of things, smart cities and networking can improve a city and its citizens lives.

TRADITIONAL HUNGARIAN FOOD

Customer Service Associate | Leeds, West Yorkshire | Apr 2017 - Jun 2018

In this position, I was in charge of the making and distribution of hundreds of pastries a day. With my assistance, we have created a massive online presence from which we issued promotions and introduced new products. Working there, I was able to make decisions for a team and improve my communication skills.
